

Poster Sessions

POSTER

Redefining the Role of Information Brokers: The Case of Ghana's Agricultural Innovation System and Information Communication Technologies (ICTs)

Benjamin Addom—bkaddom@syr.edu
Syracuse University

Keywords: Information management, Information policy, Community informatics, Knowledge management, Qualitative methods

POSTER

Creating Context for User-Generated Tags: An Exploratory Study

Nicole D. Alemanne ; Besiki Stvilia; Corinne Jörgensen—nalemanne@fsu.edu
Florida State University

Keywords: Social tagging, metadata, image description, cultural heritage

POSTER

Aliases and Ambiguity: A case study of gene aliases, and implications for information curation and AI

Matthew Armstrong—camstr3@illinois.edu
University of Illinois

Keywords: Sociology of science, bioinformatics, name ambiguity

POSTER

Using History to Study Everyday Information-Seeking Behavior in America: The Case of Car Buying

William Aspray; Barbara Hayes—bill@ischool.utexas.edu
University of Texas - Austin

Keywords: Information-seeking behavior, information in everyday life, automobile, dealership, safety, environmental movement, suburbanization, war, Depression, advertising

POSTER

Annotations and the Digital Humanities Research Cycle: Implications for Personal Information Management

Belanger, Marie-Eve—me.belanger@utoronto.ca
University of Toronto

Keywords: Annotation, personal information management, scholarly research model

POSTER

The force of standards and guidelines in Web accessibility work

Alison Jane Benjamin—alison.benjamin@utoronto.ca
University of Toronto

Keywords: Standards, accessibility, inclusive design, science studies

POSTER

Exploring Impacts on Older Adults' Channel Selection when Faced with an Information Need

Johanna Lynn Birkland—jlbirkla@syr.edu
Syracuse University

Keywords: Older adults, elderly, seniors, information seeking, media, digital information

POSTER

Location-based questions and their implications for digital reference consortia

Bradley Wade Bishop—bwb06c@fsu.edu
Information Use Management and Policy Institute

Keywords: Digital reference, location-based questions, consortia

POSTER

Assessing Need for an Automated File Format Obsolescence Warning System for Digital Collections

Heather Louise Mae Bowden—hbowden@email.unc.edu
University of North Carolina

Keywords: Digital curation, tools, user-centered, file-formats, automation

POSTER

Improving federal policy on website accessibility

John Brobst—johnbrobst2000@yahoo.com
Florida State University

Keywords: Web accessibility, Section 508, information policy

POSTER

Preparing Future Digital Curation Faculty: Three Doctoral Fellows As Examples

Michael E Brown; Kaitlin Costello; Sarah Elisabeth Ramdeen—ramdeen@email.unc.edu
University of North Carolina

Keywords: Digital curation

POSTER

Virtual Scientific Teams: Life-Cycle Formation and Long-Term Scientific Collaboration

Gary Burnett; Kathleen Burnett; Michelle M. Kazmer; Paul F. Marty; Besiki Stvilia; Charles C. Hinnant; Adam Worrall—gburnett@fsu.edu
Florida State University

Keywords: Virtual scientific teams, national high magnetic field laboratory, theory of information worlds, lifecycles of intrinsically transient workteams

POSTER

The Study of Information Revisited: Chaos in the Emergence of Disciplinary Identity

Kathleen Burnett ; Laurie J. Bonnici; Manimegalai M Subramaniam—kburnett@fsu.edu
Florida State University

Keywords: Information science, LIS, CIS, disciplinary identity

POSTER

Building Folk UMLS: An Approach to Finding Meaning of Folk Terms in Medical Domain

Miao Chen; Bei Yu; Xiaozhong Liu—mchen14@syr.edu
Syracuse University

Keywords: Ontology, concept extraction, ontology concept matching

POSTER

Enhancing Access to the Web: Vocabulary Analysis on Users' Tags and Professionals' Index Terms

Yunseon Choi—ychoi10@illinois.edu
University of Illinois

Keywords: Controlled vocabulary, folksonomy, subject gateways, subject indexing, social tagging

POSTER

Leaders Wanted: Mentoring and Retaining Librarians of Color

Nicole Cooke—nicole.cooke@rutgers.edu
Rutgers University

Keywords: Diversity, spectrum, ALA, constant comparison, information gap, mentoring, communities

POSTER

Digital Preservation Education in iSchools

Kaitlin Light Costello—kaitcost@email.unc.edu
University of North Carolina

Keywords: Digital curation, digital preservation, graduate education, iSchool.

POSTER #

Work in Progress: What is “Enough”?

Jeanette de Richemond—jderichemond@gmail.com
Rutgers University

Keywords: Enough, information behavior, clinical informatics

POSTER #

DMCA Take-down Notices on Campus: A Case Study

Wyatt Evan Ditzler; Michael Zimmer; Tomas Lipinski—weditzler@uwm.edu

University of Wisconsin - Milwaukee

Keywords: DMCA, take-down notices, copyright, university campus

POSTER #

Participatory Media for Education: Driving Student-Centered Learning

Nathan Rahmat Gandomi; Erin Beth Knight—ngandomi@ischool.berkeley.edu

University of California - Berkeley

Keywords: Teaching and learning, education technology, social media, participatory media

POSTER #

Exploring Methods in Community Informatics

Jeffrey A Ginger; Adam K. Kehoe; Navadeep Khanal—ginger@illinois.edu

University of Illinois

Keywords: Methods, cyberpower, community inquiry, PAR

POSTER #

Hogs and Harvesters in the Digital Age: The Farm, Field, and Fireside Collection at the UIUC Library

Harriett Elizabeth Green—green19@illinois.edu
University of Illinois

Keywords: Digital archive, newspapers, humanities, metadata

POSTER #

Achieving the Intercalation of the Social and the Technical in Computing: The SREC (Socially Robust and Enduring Computing) Program

David James Hakken; Vincenzo D'Andrea; Maurizio Teli—dhakken@indiana.edu

Indiana University - Bloomington

Keywords: Combining technical and social aspects of computing, professional institutionalization of computing, the future of computing

POSTER #

Fighting Diabetes with Information: Where Social Informatics Meets Health Informatics

Barbara Marie Hayes; William Aspray—bmhayes@iupui.edu

Indiana University

Keywords: Diabetes, information research, electronic health records

POSTER #

Automated Keyword Extraction of Learning Materials Using Semantic Relations

Keisuke Inoue; Nancy McCracken—kinoue@syr.edu
Syracuse University

Keywords: Text rank, page rank, keyword extraction, metadata, semantic relatedness

POSTER #

A Socio-Technical Analysis of the Interplay between Inter-Organizational Information Technologies and the Network Forms of Inter-Organizational Governance

Mohammad Hossein Jarrahi—mhjarrahi@gmail.com
Syracuse University

Keywords: Inter-organizational information systems, actor network theory, institutional theories

POSTER #

Using Prediction Markets to Motivate Public Participation in Patent Examination

Lian Jian—ljian@umich.edu
University of Michigan

Keywords: Patent, markets, intellectual property

POSTER #

The Imagined User of “Universal” Information Access Efforts: Ingrained Assumptions in Early American Public Libraries and Large-Scale Digitization Initiatives

Elisabeth Anne Jones—eaj6@uw.edu
University of Washington

Keywords: Digitization, large-scale digitization initiatives, public libraries, library history, structural bias

POSTER #

A Web Link Structure of the American Library & Information Science Field: A Pilot Study

Soohyung Joo—sjoo@uwm.edu
University of Wisconsin - Milwaukee

Keywords: Web link structure, library and information science, webometrics

POSTER #

Developing a Usability Measurement Instrument in Academic Digital Libraries

Soohyung Joo—sjoo@uwm.edu
University of Wisconsin - Milwaukee

Keywords: Usability, measurement instrument, academic digital library

POSTER #

Effects of Ease of Use, Effectiveness, and Use Frequency on User Satisfaction in Academic Library Website Uses

Soohyung Joo—sjoo@uwm.edu
University of Wisconsin - Milwaukee

Keywords: Ease of use, effectiveness, use frequency, academic library, user satisfaction

POSTER #

Meta Organizational Influences on Scientific IT Infrastructure Development

Kerk F. Kee—kerk.kee@gmail.com
University of Texas - Austin

Keywords: IT infrastructure development, cyberinfrastructure, IT design, organizational communication and influences

POSTER #

Information Doesn't Want to Be Free: The Irreducible Costs of Information

Kathleen Kern; Rebecca Crist—rcrist@illinois.edu
University of Illinois

Keywords: Publishing models, information economics, open access

POSTER #

Factors Influencing the Adoption of Social Media in the Perspective of Information Needs

Youngseek Kim; Minjae Kim; Kyungseek Kim—youngseek@gmail.com

Syracuse University

Keywords: Social media, IT/IS adoption, information needs, gratification approach, TAM, innovation diffusion theory

Poster Sessions

POSTER

Toward a Theoretical Framework for Digital Age Information Behavior of Youth

Kyungwon Koh—kwk05@fsu.edu
Florida State University

Keywords: Information behavior, youth, digital age, radical change theory

POSTER

Social Inclusion in High School: A baseline behavioral study to inform the design of pro-diversity technology

Peyina Lin—pl3@u.washington.edu
University of Washington

Keywords: Social technologies, social media, structural approach, extracurricular and civic participation, social inclusion

POSTER

"Hi! I'm Harvey, A Consent Bot": How Automating The Consent Process In SL Addresses Challenges of Research Online

Peyina Lin; Mike Eisenberg; John Marino—pl3@u.washington.edu
University of Washington

Keywords: Informed consent, virtual environments, online research

POSTER

Analysis of query reformulation types on different search tasks

Chang Liu; Jacek Gwizdka—changl@eden.rutgers.edu
Rutgers University

Keywords: Query reformulation, search task

POSTER

Personalizing Information Retrieval Using Task Stage and Task Type

Jingjing Liu—jingjing@eden.rutgers.edu
Rutgers University

Keywords: Personalization of IR, contextual factors in IR, task stage, task type

POSTER

Community Interest Language Model for Ranking

Xiaozhong Liu; Miao Chen—xliu12@sy.edu
Syracuse University

Keywords: Ranking, language model, community interest

POSTER

Wayfinding in the Labyrinthine Library: A Mixed Methods Study Investigating Public Library User Wayfinding Behavior

Lauren H. Mandel—L.Mandel@fsu.edu
Florida State University

Keywords: Wayfinding, public libraries, library facilities

POSTER

Using maps for virtual collaboration

Janet Marsden—jmarsde@sy.edu
Syracuse University

Keywords: Geo-visualization, virtual collaboration, geospatial information systems, geospatial information technologies

POSTER

Assessing iSchool Effectiveness through Alumni Feedback: Preliminary Results from the Workforce Issues in Library and Information Science 2 (WILIS 2) Project

Joanne Gard Marshall; Jennifer Craft Morgan; Victor W. Marshall; Deborah Barreau; Barbara Moran; Paul Solomon; Susan R. Rathbun-Grubb; Cheryl A. Thompson—susanrg@email.unc.edu
University of North Carolina

Keywords: Education for IS, iSchool program evaluation, careers of IS graduates

POSTER

Orality in the Library: How Mobile Phones Challenge Our Understandings of Collaboration in Hybridized Information Spaces

Rhonda McEwen; Kathleen Scheaffer—kathleen.scheaffer@utoronto.ca
University of Toronto

Keywords: Mobile phones, cell phones, libraries, information centers, iSchool, space, place

POSTER

Ph.D. Portal: Developing an Online iSchool Doctoral Student Community

Robin Naughton; Catherine Hall; Haozhen Zhao; Xia Lin—maughton@school.drexel.edu
Drexel University

Keywords: User-centered design, community portal, information management, social network

POSTER

Commonality Analysis: Demonstration of an SPSS Solution for Regression Analysis

Kim Nimon; Mariya Gavrilova—kim.nimon@unt.edu
University of North Texas

Keywords: Commonality analysis, multicollinearity, suppression

POSTER

Outside the Frame: Modeling Discontinuities in Video Stimulus Streams

Brian C. O'Connor; Richard L. Anderson; Patrick McLeod; Melody J. McCotter—brian.oconnor@unt.edu
University of North Texas

Keywords: Video, key frames, document theory, information theory, functional ontology

POSTER

The Use and Misuse of Science: Refining the Theoretical Framework of Science Policy

Shannon Melody Oltmann—soltmann@indiana.edu
Indiana University

Keywords: Science policy, information policy, government

POSTER

Libraries as Bridges across the Digital Divide: Partnerships and Approaches Used in the U.S. Technology Opportunities Program, 1994-2005

Anna Pederson; Kate Williams—apeders5@illinois.edu
University of Illinois

Keywords: Grants, libraries, community informatics

POSTER

Folktales & Folksonomies: Investigating the Utility of Tags as a Means of Description for Folktales

Carrie M. Pirmann—pirmann2@illinois.edu
University of Illinois

Keywords: Folksonomy, tagging, information access, folktales

POSTER

The Influence of Document Indexing on the Bilinear Property of Vector Space Model

Peng Qu—chupeng_326@163.com
Peking University, China

Keywords: Indexing, vector space model, inner product

POSTER

Beyond Intent: Technology Adoption and Appropriation by University Staff

Pablo-Alejandro Quinones; Stephanie Teasley—pabloq@umich.edu
University of Michigan

Keywords: Adoption, appropriation

POSTER #

Extending an LIS Data Curation Curriculum to the Humanities: Selected Activities and Observations

Allen H. Renear; Molly Dolan; Kevin Trainor; Trevor Muñoz—madolan@illinois.edu
University of Illinois

Keywords: Data curation, humanities, education, curriculum, libraries

POSTER #

Peer Production in Politics: Democracy vs. Governance

Jessica Richman—jessica.richman@gmail.com
Oxford Internet Institute

Keywords: Politics 2.0, policy entrepreneurship, Web 2.0

POSTER #

Technology Access and Training in Public Libraries: A pilot study of technology assistance to patrons of the Urbana Free Library

Susan Rae Rodgers—srrodger@illinois.edu
University of Illinois

Keywords: Community informatics, qualitative methods, sustainability

POSTER #

Understanding How Vulnerable Populations Use Common Information and Communications Technologies (ICTs) to Access Health Care Information

Michelle Rogers; Lisl Zach; Prudence Dalrymple—michelle.rogers@school.drexel.edu
Drexel University

Keywords: ICT, internet, healthcare, mobile computing, digital divide

POSTER #

Researcher Subjects: Gaining Access and Building Trust in an Online Breast Cancer Support Group

Ellen L. Rubenstein—erubens3@illinois.edu
University of Illinois

Keywords: Online communities, health informatics, online ethnography

POSTER #

Collaborative modeling for robot design

Selma Sabanovic; Matthew Francisco—francm@rpi.edu
Indiana University

Keywords: Elderly, collaborative modeling, robot design, agent-based modeling

POSTER #

The Jersey Punk Basement Scene: Exploring the Information Underground

Joe Sanchez; Aaron Trammell; Jessa Lingal; Nathan Graham—sanchezj@rutgers.edu
Rutgers University

Keywords: Social informatics, information seeking, punk, information underground

POSTER #

The LIS Virtual Library: A case study of library support for an iSchool

Susan E. Searing; Tim Offenstein—searing@illinois.edu
University of Illinois

Keywords: Virtual libraries, websites, electronic information resources, LIS education, change

POSTER #

Save the tweets so you can understand the birds

Claudia Serbanuta; Tiffany C. Chao; Aiko Takazawa—cserban2@illinois.edu
University of Illinois

Keywords: Twitter, Moldova, twitter revolution, user generated content, memory

POSTER #

The Value of Public Sector Information as a Strategic Resource for Socioeconomic Development Research and Policy Activities in South Africa

Raed M. Sharif—raedsharif@yahoo.com
Syracuse University

Keywords: Public sector information, socioeconomic development, absorptive capacity, South Africa, developing countries

POSTER #

Why do users neglect suggestions?: Effects of semantic relatedness and task on word recognition

Catherine L. Smith; Nina Wacholder—c.smith@rutgers.edu
Rutgers University

Keywords: Interactive search, query, semantic priming

POSTER #

Applying multimodal discourse analysis to the study of image-enabled communication

Jaime Snyder—jasnyd01@syr.edu
Syracuse University

Keywords: Multimodal discourse analysis, image-enabled discourse, visual communication

POSTER #

Common Ground: Exploring the intersection between information, technology, art and design

Jaime Snyder; Michael A. D'Eredita; Robert Heckman; Jeffrey M. Stanton—jasnyd01@syr.edu
Syracuse University

Keywords: Multidisciplinary collaboration, iSchool movement, design

POSTER #

QIC: Query In Context for Educational Collections

Min Song; Lori Watrous-deVersterre—llw2@njit.edu
New Jersey Institute of Technology

Keywords: Context-sensitive text mining, digital libraries, ontologies, visualizations, information retrieval

POSTER #

An online representation of community response: the case of 1906 San Francisco Great Earthquake and Fire

Aiko Takazawa; Kate Williams—aikot@illinois.edu
University of Illinois

Keywords: Community memory, crisis informatics, social networks

POSTER #

Can SchoolNet Bridge the Digital Divide in Education in Thailand? Perspectives from Policy Makers to End-users

Wandee Tangsathitkulchai; Peemasak Angchun—surasakandgee@yahoo.com
University of North Texas

Keywords: SchoolNet project, Thailand, digital divide, infrastructure

POSTER #

A Classification of Agents and Entities Influencing Law Enforcement

Joseph Vincent Treglia—jvtregli@syr.edu
Syracuse University

Keywords: Classification, influence, entities, law enforcement agencies

POSTER #

Modeling Staff Behavior in the Production of Information Products

Cameron Tuai—ctuai@indiana.edu
Indiana University

Keywords: Structural contingency theory, information services

Poster Sessions

POSTER #

Using Paper Maps for Geospatial Data Collection

*Sarah Van Wart; Michael Manoochehri; Nathan Gandomi—michael@ischool.berkeley.edu
University of California - Berkeley*

Keywords: ICTD, geospatial data, participatory mapping, rural development

POSTER #

The Role of the Public Library in Society

*Sarah M. Webb—swebb21@gmail.com
Syracuse University*

Keywords: Public libraries

POSTER #

Which Life-Cycle? Data Curation and Records Management Education

*Nicholas Weber—nmweber@illinois.edu
University of Illinois*

Keywords: Records management, data curation, collaboration

POSTER #

Organizing from the Middle Out: Citizen Science in the National Parks

*Andrea Kathleen Wiggins—awiggins@syr.edu
Syracuse University*

Keywords: Citizen science, virtual organizations, social structure, emergence

POSTER #

Sensemaking in the Space: An Alternative Design Perspective for Mobile Navigation Systems

*Anna Wu; Xiaolong Zhang; John Carroll—
annawu@psu.edu
Pennsylvania State University*

Keywords: Navigation, sensemaking, mobile interface design

POSTER #

Embodying Research Methods into Fields and Tables: A Process of Informed Database Design

*L. Wynholds—wynholds@ucla.edu
UCLA*

Keywords: Informed database design, research methods, ethnomethodology, information architecture

POSTER #

Automatic Extraction of Location Relations from Text

*Wu Zheng; Catherine Blake—wuzheng2@illinois.edu
University of Illinois*

Keywords: Information extraction, relation mining, text mining, knowledge discovery
